SHOTEC 17th Annual Sales Meeting

Shotec Sales Team has reviewed and discussed in its annual Sales Meeting all achievements made in the previous year and the challenges faced. Sharing the lessons learned and acknowledging the successes achieved is an essential element for the continuous development of our Sales Team.

CDC Groth Seminars in Cairo & Alexandria

On 7th and 8th of June 2022 SHOTEC has established two seminars in Cairo and Alexandria at Radisson Blu Hotels covering the Safety equipment and breathing relief valves, with the support of CDC Groth specialists Mr. Auke Thijssen and Dylan Marksman, with more than 60 attendees from 40 different clients in oil & gas, chemical & petrochemicals, and industrial markets.

Shotec 3rd Sports Day

Plenty of fun and energetic time at the Stadium, Shotec competing teams (Grey Team) & (Red Team). The winners and Shotec Cup go to the grey team.

New References & Successful jobs

SHOTEC Service team has successfully completed the assembly and installation of the new cooling towers filling supplied by our partner SCAM TPE to our client EZZ Steel Plant in Sukha.

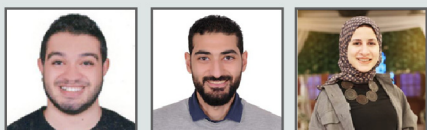

Together with Petrojet & ENPPI, Alfa Laval Olmi has successfully completed the design, manufacturing and delivery of 13 high pressure Air Coolers for SOPC Coker Complex in SUEZ.

Our Partner BORSIG Germany has successfully completed the design, manufacturing, & the delivery of one new API 618 Hydrogen Reciprocating Compressor 0.5 MW to our client Cairo Oil Refining company "CORC" in Mostorod site near Cairo, installation of compressor on foundation has been done in June 2022 with support of SHOTEC service team and CORC, & within Q-3, 2022 the commissioning and startup will be supervised by BORSIG.

New Team Members

Welcome on board! We are welcoming three new Sales Engineers in our Sales Team. Their talent, drive and know-how will be an important added value to our Team and to our clients.
